business and your budget**

# Canon's L295 Laser Fax - a productivity partner that means business

Benefit from efficient faxing features in a compact design

A fast, high quality fax plus practical laser printer and copier

The FAX-L295 provides fast, high quality faxing with a large 448 page memory combined with practical laser printing and copying.

Cut Costs, Save Time

This Super G3 fax transmits documents at a fast 3 seconds per page\*, so your phone costs are reduced and less time is spent waiting at the machine.

## Worry-free faxing

If paper or toner runs out after hours, a large 448-page memory safely stores all incoming documents - for printing out afterwards. Documents can also be scanned in memory and sent later.

## Exceptional Quality

When you're transmitting detailed documents, such as diagrams or photos combined with text, Canon's unique UHQ (Ultra High Quality) technology ensures a perfect finish every time. Half-tone reproduction gives extra depth and clarity.

## Easy all-in-one cartridge

Simply swap the All-in-One cartridge, containing toner and all essential parts, and your fax is as good as new. There's no mess, no hassle.

## U-Paper Path

The FAX-L295 looks good and can fit easily on any desk or space - thanks to its compact, classy design with space-saving U shaped paper path. It also can stop unwanted faxes, as direct mail prevention means you will only receive faxes from coded numbers stored in the machine.

## Practical Laser Printer

Use the FAX-L295 as a fast laser printer, via the USB connection, and get superior quality output.

## Dial Search

Operation is equally easy, with a handy dial search function showing all stored one-touch and coded dials alphabetically.

Intuitive user control panel

FAX-L295

# L295 Plain Paper Laser Facsimile Specifications

<b>FAX UNIT TYPE</b>	
Type	Standalone facsimile with printer function
Applicable line	PSTN, PABX
Print technology	Laser beam printing
<b>FAX SCANNING FEATURES</b>
